

Netmail Workshops

Upcoming Events

No scheduled events.

Past Event:

Netmail Platform Workshop

Description: Aimed at IT administrators who currently use Netmail, this workshop will cover everything from troubleshooting system performance to implementing policies, handling eDiscovery requests, and preventing data leaks. Whether you've been administering Netmail for years or only a few months, this training explores advanced tips, tricks, and best practices that everyone should know to make the most of the Netmail Platform.

Agenda: See the agenda from our last workshop [here](#) (PDF).

Contact: If you would like to register for this workshop, suggest a topic, or require more information, please contact Debbie Howlett at debbieh@netmail.com.
